

ROBERTSON COUNTY SCHOOL

TECHNOLOGY USER AGREEMENT

The Robertson County School District provides students and staff with network access and resources. The network is a computer service, which includes the use of computers, Chromebooks, servers, software, internet, and email. The Acceptable Use Policy must be signed before direct access to the network and resources is given.

NETWORK AND INTERNET REGULATIONS

The use of your account must be in support of education and research and consistent with the educational objectives of Robertson County School. School access is not to be used for private business or personal, non-school related communications. Students are permitted to use the Internet for research and as a resource. All sites a student accesses are recorded through a proxy. A student who does not have a signed AUP on file may not share access with another student.

Generally, behavior including, but not limited to, the following is not permitted:

- Users may not use or alter anyone else's Internet account.
 - Users may not give their password to anyone
 - Users may not share personally identifying information.
 - Users may not use proxy anonymizer sites to access web sites that are blocked by the District Network.
 - Users may not transmit obscene, abusive or sexually explicit language
 - Users may not offer Internet access to any individual via their District account.
 - Users may not create or share computer viruses.
 - Users may not destroy another person's data.
 - Users may not use the network for commercial purposes.
 - Users may not monopolize the resources of the District Network by such things as running large programs and applications over the network during the day, sending massive amounts of e-mail to other users, or using system resources for games.
 - Users may not break or attempt to break into other computer networks. This is considered Hacking and violates Federal Laws (it is a Federal offense).
 - Users may not use MUD (multi-user games) via the network.
 - Users are not permitted to get from or put into the network any copyrighted material (including software), or threatening or sexually explicit material. Copyrights must be respected.
 - Users may not download inappropriate data onto the network. This includes, but is not limited to, MP3's, video, games, etc.

SAVING DOCUMENTS

Documents are saved using cloud storage on Chromebooks. This will require a District issued Google Apps for Education account. Using this account, you can save, export and import documents. This allows you to access your documents from other devices via the Internet. You can also share your documents with other students or your teacher.

REPORTING TECHNICAL ISSUES

Errors or problems should be reported as soon as is practical. This can be done by informing school personnel so the issue can be addressed in a timely manner. Damage due to determined accidental cause will be addressed by the school through normal procedures. Damage due to negligence or carelessness will result in the students assuming the financial responsibility of the replacement/repair of the Chromebook.
